time	visuals	audio	
0:00	M1. Winter village Stars up	<i>(opening sfx - :30 sec.)</i>	1 2 3 4
0:31		In the north country, this is the time of darkness and quiet and cold. The Grizzly sleeps, the Coyote scavenges, and the mountains are sealed in snow.	5 6 7 8 9
0:47		The Sun rises late, and goes to bed early. The nights are longest now, and the stars burn cold and bright.	10 11 12 13
1:01	1. Orion Star*Line	This is the time when Orion the hunter mounts the heavens in his shining belt.	14 15 16
1:10	2. Canis Major Star*Line	Nipping at his heels are his hunting dogs – the Greater Dog bearing the bright star Sirius at its throat.	17 18 19 20
1:20	3. Taurus Star*Line	High above, the Seven Sisters huddle for warmth – near the great bull Taurus, with his V-shaped head and his mighty horns.	21 22 23 24 25

time	visuals	audio	page
1:31	4. Gemini Star*Line 5. Auriga Star*Line	The Twins are there, too – and Auriga in his starry chariot – all marching together across the fields and pastures of the sky.	1 2 3 4
1:46		This is the time when the pulse of life slows, when the land sleeps under its winter blanket; a time for upturned collars, and hot cocoa, and the cheer of a wood fire against the gloom.	5 6 7 8 9 10
2:00	M2. Village with lights	It is the coldest and darkest of the seasons – and yet this season holds some of the warmest and brightest celebrations of the year.	11 12 13 14 15
2:12		And it always has. In the past, it was the winter solstice that people celebrated, when the southerly Sun turned north again, when hope was reborn and the promise of life renewed.	16 17 18 19 20 21
2:30		Today, we keep the season through the observances of Christmas, the Jewish Festival of Lights, and the raucous beginning of the New Year.	22 23 24 25
